Father's Name

→ GANGESH MISHRA.

I Shantanu Mishra was looking for a good medical university overseas and then find out about the Gdańsk medical university and on their website found out about Education Poland and Mr. Michael Agnihotri's name & India's office in Delhi.

I mailed to them and they sent me the entire structure of the university that how they work and how we can give you "logistical support".

On the day of examination dr. Wojciech came to take our Personal Interview from the university. He told us about the future aspect of the field and many more "enlightment" speeches.

Education Poland received a visa appointment booked our flight tickets.

I am very happy in getting a seat in this university and hope all the best for me and everyone for their future career.

Best of luck!

Shantanu Mishra

SHANTANU MISHRA.

It was a pleasure for me to take the facility provided by Education Poland during the visa process. 'Education Poland' people guided me for the best university which I dreamed off.

I got information about the Education Poland through Internet and their personal visit to our college.

Thanking You,

Yours Faithfully

Bharath H.S

When I joined for engineering I didn't have any plan of higher studies abroad. But when I reached final year I realized higher education abroad will be helpful for my future prospects. When I searched internet I came across many consultancies. But I found Education Poland focusing only on higher education in Poland. It was my turning point when I called Education Poland office on July 29th. After registration with Education Poland I didn't have any difficulties throughout the admission process. Right from the beginning of applying to university, payment of fees, visa appointment, visa processing, accommodation and all other facilities were arranged by Education Poland office. Education Poland kept me updated about all the process. With my experience I find speed, accuracy, dedication and professionalism are the key characteristics of Education Poland. I was made aware about the future prospects of Robotics engineering by Education Poland. I was surprised when I got the offer letter through mail at midnight. It shows Education Poland work all through day and night.

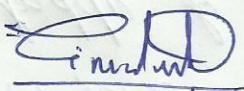

I strongly recommend Education Poland for all the students who are looking for higher

their higher studies in Poland. I received my visa in just 4 hours. This is enough to show the professionalism of Education Poland.

I am thankful to Vishal sir, Pritish sir and Raman sir for helping me throughout the admission process. I am expecting the same service throughout out my stay in Poland and thereafter.

Thanking You

FEED BACKGovardhan

Great Service by education Poland Team (Delhi).

Satisfied with all the Services.

I came to know about education Poland through my friend at the University. after going through their presentations and website. I contacted them and got a good response especially from Sanjay Sir from United Kingdom office. you can relax after filling the Registration form the rest will be taken care by the team.

I personally thank Sanjay, Vishal, Abhishek and Raman for my admission at gdansk

university of technology

I have come to know this consultancy service through the other person. And this is the best consultancy I have seen. They made the visa work easy and quick. Service is excellent.

Name: Chirag G. Marakana

Passport: L1117496.

I finished my 12th and now it was time to think about the course and the University. I chose Aeronautical engineering and chose University in Dehradun, India. I later came to know about the University, which was not appropriate for me. I then came to know about EDUCATION POLAND, which helped me a lot over my career.

Education Poland helps from the beginning till end. Like right from the career counseling to admission to Visa and services when you go abroad.

I really enjoyed or you can say loved services of Education Poland and would thank them for such great services and get me good University.

Chirag G. Marakana

I am Rakesh Chauhan. I am happy to say that I finally got a admission ip in poland the college of Warsaw University of technology.

I take all the information about the university through canadair Education poland and also search in internet and I got a finially decision to take the admission in poland.

because I impressed this course Aerospace Engineering. In Warsaw university there is Higher education and good scope in Aerospace Engineering field.

Education poland kept me update about all the information about the warsaw university.

I was made aware about the future prospects of Aerospace engineering by Education poland.

I hardly say that the education poland is good way to go the poland far.
